

APPLICATION FOR MEMBERSHIP TO S.E.P.P.
SOCIETY FOR THE EDUCATION OF PHYSICIANS AND PATIENTS

I believe that the profession of medicine and the allied professions are in real jeopardy, as are the concepts of private practice, free choice, physicians' advocacy of patients, and the delivery of cost effect the quality of medical care. I would like to be part of the growing effort to reverse this ominous trend, and in doing so, return the healthcare profession back to its rightful owners-those receiving care and those giving care. Physicians, allied professionals, and patients are the only true advocates for the best healthcare. I am ready to help end the deceit of managed care and government run medicine and take an active part to protect what is good in our American system and remove what is bad (and UnAmerican). I further support the commitment that SEPP promotes to act and respond on the basis of principle and not pragmatic survival in today's unprincipled climate.
